

Examples of CINNABAR BRIDGE Book Projects

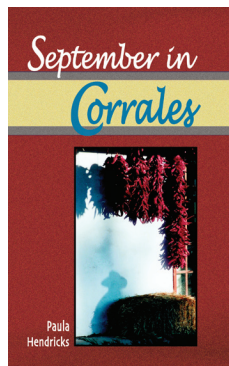

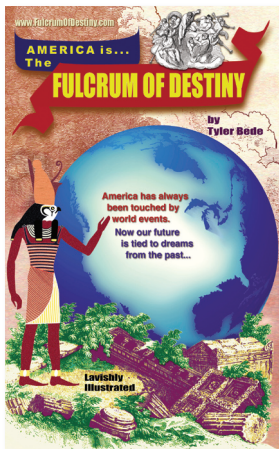

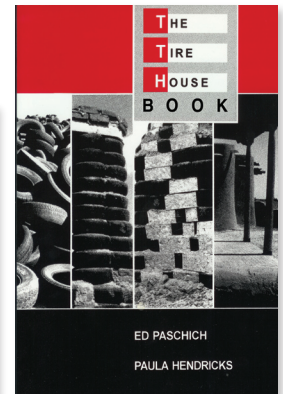

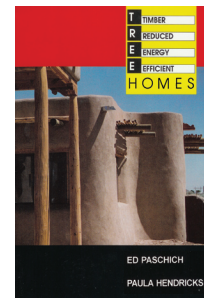

Reference Book Series

Graphic design solution for the covers differentiates the six Start-Up Kits by business entity, year, and state. We used color and graphics to reinforce the identity of each book as well as to enhance the brand.

Write the Book Become the Expert

Books established this green builder as a leader in his field. Production of these complex books included concept development, interviews, project management, writing, and photography.

Express Yourself: Opinion or Fiction

From concept to production: content, writing, design, photography, illustration, and project management. We have produced a book of poetry, fiction, essays, and photographs, and a heavily illustrated non-fiction book.

Book Producers

We do whatever is needed to produce books. Cinnabar Bridge Communications combines an aesthetic sensibility with technical savvy and project management skills.

Full service or *à la carte*: from developing the concept; shaping the idea into a viable project; creating the manuscript, the graphics, and the book design; preparing the appropriate electronic files, to finding a printer or publisher.

We are interested in creativity, sustainable development, innovation, business, spirituality, art, and self-expression.
